

M_BM biliardi [®]

Factory

The project of the factory MBM Biliardi, as we see it today in its special strategic location, near Rome and close to the highway “Autostrada del Sole”, between the exits of Anagni and Colferro, is the result of a complex study, carried out choosing the best performing machines, some of which were designed and developed by MBM Biliardi it self. Only numerical control machinery, able to assemble and guarantee high quality pieces, ensures the success of an outstanding product worthy of MBM Biliardi. The inauguration of the factory in 1995 together with the start of the World Billiard Championship held in Italy, in Fiuggi city, has launched a tradition of experience for MBM.

Today our factory is still the most traded company in hi-tech sector, equipped with high precision CNC machinery. These machines, together with the accurate selection of raw materials and the scrupulous testing of our products give our billiards the highest levels of quality and reliability. Worldwide famous billiard champions visited our factory and appreciated our values and the quality we guarantee to the products. That is why our slogan is: “The Billiard Table cannot be purchased at random! Only MBM biliardi guarantees art and technology.” Naturally Made in Italy.

High technology

MBM Biliardi factory with its high precision CNC machines, can satisfy any request in every production level of the specific processing of wood.

Machine for rectification and squaring of billiard table

This is the unique machine in the world capable to make billiard table a perfect rectangle. Thanks to electronic systems, we can get a perfect playing surface. Designed by MBM Biliardi engineers, the only company in the world able to carry out such work, this machinery brings together the core of the billiard table, the slate and the frame, making two fundamental operations, transforming a simple wood board into a high precision billiard. The first operation is the rectification and perfection of the slate in order to avoid any friction of the ball. The second operation is the squaring of the billiard table obtained using a diamond tip that rotates around its perimeter and that simultaneously mills slate and frame, reaching perfection.

Pantograph machine

This machine checks, one by one, all the components of the billiard table and rejects those that are not ok. This system is guaranteed by a complex mechanism of aspiration and seals that lets pass only those elements that are good according to the standard process and rejects not suitable components. The machine is able to check with high precision the over three meters long pieces.

Three overlapping, curved, metallic silver bands that sweep across the lower half of the page from left to right, creating a sense of motion and design.

Design line

The billiard table MBMbilliardi is realized with long time seasoned wood selected by high-quality masters of cabinet-making. The table is made according to laws of compensation, which permit the cancellation of the natural movements of the used material and ensures a perfect stability of the product over years.

The billiard table includes also the professional MBM regulators for slate and regulators of frame flexion.

The elements of the billiard tables are manufactured by a computerized numerical control machinery, which ensures the perfect squaring and rectification of the playing field, bestowing a very high quality and technology to the billiard table.

Ziggurat

*Not only the billiard table...
But also unique jewel of design and technology!*

Designed more than twenty years ago by designers of MBM, retakes the form of antique gradual pyramids. From initial and timely idea, which perfectly was reflecting the pyramidal characteristics, over the years it took up the evolution of design and technology.

And through the fine taste and rich experience of its creator, today we can admire the particular lines which mark it. Lines which distinguish it and make Ziggurat the example of vanguard and technology. Born to be also used in championships at national and international character.

A perfect representation of valid union between vanguard design and top technical experience. Taking the form of antique Mesoamerican pyramids, evolved, turning its base and taking a new distinguish actual line.

*Luxury Line
Defining Gravity*

B__ig

*The crown jewel of the collection...
exclusive billiard table*

The striking thing you see at first glance looking at this splendid billiard table B_ig of MBMBiliardi is definitively the design of external form. Such attractive and contemporary in its soft lines and sinuous curves.

Surfaces are coated in a very organic way and are molded in a way as if they were liquid, becoming immediately the element of a Project, which enchants the viewer. The billiard rails, as whole playing field, are entirely covered with a soft traditional billiard cloth.

Precious and innovative the new billiard table, signed by Architect Massimo Iosa Ghini for MBMBiliardi.

Snappy, aerodynamic and futuristic lines for a form corresponding to high technology.

*Billiard table B_ig -
synonym of prestige and highest performance!*

A decorative graphic consisting of several overlapping, curved, metallic-looking bands in shades of gray, arching across the lower half of the page.

City line

*“Cities have the capability of providing something for everybody, only because, and only when, they are created by everybody”
(Jane Jacobs)*

Cities have the color of years, absorb people’s thoughts, concealing them first in the alleys in a precise order of memories and then, one day entrust them to whom can hear, or to whom returns to recover the past.

From the idea of a story of the cities and its chaos, disorder, art, history and complexity in their entirety, comes the City Line. A line designed for all fans of billiards, citizens of the world and their amazing wonders!

Parigi

“Breathing Paris conserves soul...”

Victor Hugo

Billiard table City Line

Luxury and elegance

Paris has always attracted and inspired the artists and enamored from all the world. Each its corner, every its bridge, every monument was celebrated as a loved woman to madness. Is the city of enamored, of curious, of simple and complicated people. Paris is of all of us. It's not a city among many but a City which enter in heart of whom is living it.

And right from this concept is born the most fine model of City Line, thought for those, who loves the sophisticated taste and crazy elegance of a city which makes you dream.

The billiard table is made from elements of beech solid wood. Due to the developed system of anchorage the billiard is completely detachable. The frame and the rails are finished as chosen samples. Playing field is made from professional slate. Table cover is in four pieces. The product is made completely in Italy with the possibility to choose between various combinations of proposed finishings.

Shanghai

Innovative and futuristic art object!

*Innovative billiard table,
futuristic product unique
in its form and content.*

Shanghai today is the most populated city in the world, with its 23,7 millions of inhabitants. From the idea of innovation and future which today make this city one of the biggest economic powers born the billiard table made from elements of solid beech wood.

The billiard table is completely detachable thanks to the developed system of anchorage. Billiard frame and rails are finished as chosen samples. Playing field made from professional slate. Table cover is in four pieces.

The product is of high design and is made completely in Italy with accurate hand-made finishing.

*Nowhere in the world there are so many opportunities
of delicious peace as at this small island.*
Charles Dickens

*Studied especially for
outdoor areas.*

Billiard table Capri is born from the long time experience of MBMBiliardi matured in many years.

This allowed to transfer the technology of traditional billiard table into a new type of structure of billiard table, which is made entirely from anodized aluminium and has features to be completely detachable thanks to especially studied systems.

Praga

Biliardo Praga, la vera tradizione del legno!

Dalle linee semplici e tradizionali, il Biliardo Tavolo Praga nasce grazie alla comprovata esperienza della MBM Biliardi e dei suoi artigiani falegnami che attraverso una lavorazione accurata ed attenta del legno, con assoluta maestria, riescono a creare capolavori della tradizione, del lusso e del design.

La sua gamba tornita ad hoc, è leggera ed adattabile a qualunque tipo di ambiente. Inoltre grazie alle numerose possibilità di finitura ogni biliardo può assumere la personalizzazione che più si desidera, creando una infinita varietà di modelli.

Il piano che fa da copertura al biliardo, trasformandolo in un elegante tavolo da pranzo è anch'esso personalizzabile attraverso le diverse possibilità di finitura. La graziosa e sinuosa cornice lo rende un gioiello di stile e accuratezza.

Tokyo

The minimalism of oriental culture...

Minimalistic design, simple but refined. Design coupled to high performant billiard frame made him bestseller of this line and distinguishes it from similar products of its category.

The wide choice of finishing, of colours of billiard cloth makes it anyway unique.

Moreover, thanks to its table cover of various finishings and design, this product can became also the sublime dining or meeting table suitable for every space. Simple but design taste.

Dubai

Made to impress!

Amazement and contradiction...

Everything in Dubai is made to impress. Billiard table from our City Line is inspired from this splendid city. It has retro lines, sometimes is classic and traditional but is naked of antique and hard taste. So, the viewer can enjoy the refined modernism, amazing and contradictive...exactly as the city where it take its name.

The wide choice of finishing, of colours of billiard cloth makes it anyway unique.

Moreover, thanks to its table cover of various finishings and design, this product can became also the sublime dining or meeting table suitable for every space. Simple but design taste.

Bruxelles

“I know you and I admire you in silence...”

Arthur Rimbaud

The design billiard table characterized by simple forms and modular components searching the creative contrast and using the combination.

Kakà line

We have concentrated our ideas on the most representative points of communication; the public relations and all what permit us to represent ourselves and to entertain the public – obviously your guest, surely important guests because chosen by you. All of us want to do it during the moment of major relationship: during common degustation and amusement. And right here Kokà Line can express itself fully. Giving us an elegant, unique table and precious billiard.

*The range of Prestige
and high performance.*

Elegance of tradition, the style of modernity...

Its class distinguishes it and gives him so also the name. Its sinuous forms draw it and make it elegant. The croco leather which covers it, is signed by the best Italian tanneries.

The legs are as violins and are molded one by one in traditional historical foundries and brought bright by expert artisans.

The cover of billiard table is finished with polyester lacquering and is framed with a harmonious merger. This permits to transform it into an elegant dining / meeting table.

In production of Class billiard table, MBMBiliardi gave its maximum experience and peerless technology and made for billiard lovers the rail retracing the tradition of Italian billiard table.

Diamond

*Forms, corners, points and facets, softened by soft leather
signed by the best Italian tanneries.*

Unique as a precious stone...

Unique as the precious stone from which it takes its name. Shapes, corners, tips and facets, softened by a soft leather, signed by the best Italian tanneries.

The sinous lines of this legs and clearness and fragility of glass make this billiard table an art piece, unique in its kind. Moreover, the attentive technological study makes this billiard in its PRO version very professional and sportive.

Made for lovers of professional billiard table of high taste and of fine design.

Tiziano Pro

*Art has spoken many more languages
than those that humans have ever created.*

Classic Style, Billiard Tiziano Pro

Titian was the greatest Venetian artist of the sixteenth century. A master of colour he dominated the artistic scene in Venice for over sixty years, a painter who fully utilized colour in his work. Titian's style did alter throughout his long life but his interest in colour never diminished. His use of paint and brushwork made him the foremost painter in Venice and his execution of both landscapes and portraits brought him great fame in his own lifetime.

Our billiard table is inspired right from this concept, in its brightness and expressiveness, the elegant snow-white finishing, the material combination of wood with fine finishes to the delicate and refined cloth, make it the object of special taste and refinement.

Classic but at the same time elegant and luxurious, but never excessive, suitable for all types of bright and spacious areas, the refined taste of art and typical craftsmanship of a tradition that has become increasingly rare expression of our time .

Faasball

Table football, commonly called foosball (as in the German fußball “football”) and sometimes table soccer, is a table-top game, which was born between first and second world wars, but till now is unknown the name of its first inventor.

In Italy first foosball table was hand -made in far 1937 year by artisan from Poggibonsi, from that moment its popularity was always growing up.

till actual moment when it became one of the most requested games and today we have also an International Federation which accounts more than 50 affiliated nations.

MBM Billiardi, thanks to its deep-rooted experience in wood working, began to produce Professional and Design Soccer tables at the same time with its famous billiard tables.

The attention to details, the use of high quality and certified materials, make today the products of MBM the most qualified in its class.

Bill boat

Luxury naval foosball

Bill Boat foosball is the absolute new in naval world thanks to its futuristic design, which makes it an important design component for yacht, boats and luxury motorboats. Atractive also for its adaptive dimensions.

Bill Boat is a resistant product, designed for outdoor use, completely draining with removable game rods, produced only from strictly Italian materials like first quality steel, teak, leather and tempered glass.

Naked

Absolutely modern and unique in its style, the object that will revolutionize your style and will make your place an avant-garde artistic excellence!

Foosball “Naked”

And so is born the revolutionary Foosball “Naked” with its strong lines. Lines, which recall an industrial style, making it suitable for areas in loft, factory, vintage style and more.

Absolutely modern and unique in its style, the object that will revolutionize your style and will make your place an avant-garde artistic excellence!

Its solid wood structure is made of beech wood of 4 cm thickness. The dimension of this structure is considerable and this improves the strength of this foosball. Also the internal part of structure, where the balls are sliding, is made entirely of wood, letting us see the technique and strength, which follows the ancient traditional techniques of execution.

The mighty box rests on four metallic IPE legs, lacquered black. This promote the stability and improve the performance of game. The legs are the special spherical feet, which allow the perfect adhesion to any support base.

All this makes this foosball able to have the highest gaming performance available today in commerce.

For racers and sportsmen, for enthusiasts and lovers of entertainment – this is the product to which it’s impossible to say no!
